

DD/R-962-63

3 July 1963

MEMORANDUM FOR: Chairman, General Task Group

VIA : AD/OEL

SUBJECT : Project [REDACTED] 25X1A

REFERENCE : Memorandum for the Record, from Chairman,
General Task Group, dated 28 June 1963,
subject: same as above (OEL-1270-63)

The referenced memorandum brings to mind two points:

25X1A

a) Paragraph 2 indicates that the primary mission of [REDACTED] will be SIGINT. I would prefer to show that [REDACTED] has an additional major non-SIGINT collection mission.

25X1A

b) Paragraph 3 says that we should shoot for 1 August for presenting this to NRO. As you know, I am adamant that this project be sent to the field and discussed in the field by appropriate Project Officers from Headquarters before it goes to NRO. I, therefore, do not think you will make 1 August, and I think the Memorandum for the Record should show this.
